Ali Fatahian

FULL STACK WEB DEVELOPER

Professional summary

Computer Engineering graduate with over 3 years of experience as a web developer; excited at the prospect of collaborating with colleagues and improving my skills as a developer in a professional setting. Detail-oriented worker with effective creative thinking and problem-solving skills. Looking to apply my understanding of Python, JavaScript and Web Technologies: Django, REST APIs and React at your company.

Experience

Prime Connect   5/2023 - 08/2023

- Technologies used: Python, Javascript, Postgres, HTML, CSS, Django, Django REST framework, React, Blurhash, and JWT authentication.
- E-commerce website with a focus on performance, accessibility, and user experience.
- Fully functional admin panel with analytics of sales based on countries, product categories, and time.

Twitter(X) clone   04/2022 - 06/2022

- Technologies used: Python, Javascript, HTML, CSS, Postgres, Django, Django REST framework, React and JWT authentication.
- Python threading for email validation for a better user experience.
- User profiles with features such as bio, profile picture, and background image with an asynchronous checking of existing usernames for editing and creating profiles.
- Following/follower and user suggestion system
- Search, bookmark, reply, and like features

Techie Tweed Blog   08/2021 - 11/2021

- Technologies used: Python, Django, HTML, CSS, Postgres, Django DBBackup, Ckeditor, Cloudinary, Django Whitenoise, and Session based Authentication system
- Automatic weekly database backup system

Education

(2024-Now) Master of Digital Health
